### **B. Time Series**

- 5. *History:* The current time series for apprenticeship starts goes back to 2005/06.
  - In 2010/11 and 2011/12 there was a considerable increase in starts, mostly due to increased government funding.
  - In 2013/14 starts went down due to the introduction of the Advanced Learner Loan. This particularly affected those aged 25+ (compare Figure 6 below).
  - In 2014/15 the loan was abolished for Apprentices, leading to an increase to almost the previous level.

6. Since 2012/3, the data has been broken down by Oxfordshire district; see Figure 5. The last few years highlight the 2013/4 drop and a small recent decline. However, these figures are still far higher than a decade before.

7. *Ages:* Figure 6 shows that the number of apprenticeship starts by age group.

#### Figure 6: Ages of Apprenticeship Starts, West Oxfordshire

8. *Levels:* Apprenticeships can be done at a number of levels, namely Intermediate (=NVQ2), Advanced (=NVQ3), and Higher (=NVQ4 or higher, up to degree level). The number of starts at 'Intermediate' or 'Advanced' levels was lower in 2016/17 than in 2012/13. However there has been an increase in 'Higher' starts, although these are still a minority.
