

## Oxford Strategic Partnership

### Minutes of Meeting 17<sup>th</sup> January 2023

#### Attendees

Paul James, River Learning Trust (Chair)	PJ
Cllr Susan Brown, Oxford City Council	Cllr Brown
Cllr Glynis Phillips, Oxfordshire County Council	Cllr Phillips
Cllr Chris Smowton, Oxford City Council	Cllr Smowton
Caroline Green, Oxford City Council	CG
Dani Granito, Oxford City Council	DG
Ian Green, Oxford Civic Society	IG
Brendan Hattam, Land Securities	BH
Emily Lewis-Edwards, Oxfordshire Community First	ELE
Frank Nigriello, Unipart Group	FN
Supt Bruce Riddell, Thames Valley Police	Supt Riddell
Robin Rogers County Council	RR
David Munday Public Health	DM
Stuart Wilkinson, University of Oxford	SW

#### Guests

Lucy Cherry, Oxford City Council	LC
Rose Dickinson, Oxford City Council	RD
Clayton Lavallin, Oxford City Council	CL

#### Apologies

Mish Tullar, Oxford City Council	MT
----------------------------------	----

#### 1. Welcome and apologies

PJ: Welcome

- To help us ensure we can plan and record attendance and apologies, a request to ensure invites are responded to please.

#### 2. Draft minutes of the last meeting & matters arising

- Minutes of the last meeting were agreed
- Actions all completed.

#### 3. Oxford City update (Caroline Green)

Budget

- Proposals went to December Cabinet 2022. With overview of challenges
- Budget currently out for consultation.

**Action: DG** send around the link

Thriving Communities Strategy (TCS)

- Approved by December Cabinet 2022 – document adopted
- Action plan will run alongside
- There will be annual updates on the action plan to Cabinet – CG suggested they also come to OSP.

#### Covered Market

- Good response to the consultation
- £5 million investment
- There will be a statutory consultation about the plans.

#### Oxfordshire Inclusive Economy Partnership

- Charter launch next week – hopefully all received an invite.

#### Traffic Filters

- There has been misinformation circulating about the traffic filters of which is incorrect. We have been sign posting people to the City and County webpages for the correct information, please do the same.

#### Questions/comments

- **PJ** – Would welcome the TCS report coming to OSP
- **Supt Riddell** – Communication/engagement on the traffic filters has not been hitting the mark – regular meetings with TVP/CC on this
- **IG** – Yes please for the TCS update coming back to OSP, would welcome an opportunity to input, review and refine for the year ahead
- Support the view of the lack of communication on the traffic filters, really need to up our game on the communication and the development plans around this.
- Oxpens consultation – out – need to keep an eye on it
- **Cllr Brown** – Reassure City and County are working with Network rail and continue to press for clarity. The investment to the railway is massively important and transformational for the City, so it needs to happen
- **Cllr Phillips** - Echo frustration of the inability to give specific information about the traffic filters.

#### 4. Feedback on one to one meetings – moving forward

- **PJ** gave an overview of the feedback from one to one meetings
- Suggested a new meeting format for this year
- Two short on line information meetings
- 2 longer workshop sessions face to face that allow more discussion and inputs from the group to help inform and shape. Reflected on when this has worked well with OIEP
- Suggested workshop agenda items and requested ideas or areas of interest from others.

1 Local plan

2 Corporate Strategy.

- **SW** – Would welcome more detail on the content of the workshop sessions to enable to right engagement at the right time on topics. What worked well with OIEP is the smaller groups that worked things through
- **CL** – The development of OIEP is a good practice example of this model working and aims being met
- **Action: CL** An example of the journey of good practice from beginning to end
- **CG** - agree more preparation work in advance of the sessions and welcome bringing people along at the right time who have something to offer to the topic. Would like to ensure the Strategy is seen as a City owned document

**Action:** Oxford City need to support this to happen with forward planning.

- **Supt Riddell** –Interactive session would be good – challenging some of the thinking and content of documents
- **Cllr Phillips** - Welcome longer meetings but would also welcome being asked our thoughts on agenda items to include.

**Action: DG** to arrange a session soon with MT and PJ to enable them to detail out the next session well in advance, to enable others to be invited to the session.

**Action: MT** to organise the venue ASAP on return from leave.

**Action: MT** to seek others thoughts on agenda items for forward plan.

#### 5. Zero Carbon Oxford Update – Rose Dickinson – Oxford City Council

- Presentation (attachment 2)

#### 6. Oxfordshire Inclusive Economy Partnership update (OIEP) – Clayton Lavallin- Oxford City Council

- Presentation (attachment 3).

#### Questions/comments

- Very impressive update.
- **PJ-** It would be good to see example KPI's against some of the projects – what and how are they going to be reflected.

#### 7. Integrated Care Strategy Draft/engagement – David Munday – Public Health

- Presentation (attachment 4)
  - **Cllr Phillips** – is the decision making meeting the board?
  - How are things looking for Oxfordshire across BOB?
  - Interested in the dynamics of those connections across the system.
  
  - ICP sign of the Strategy end of February. Oxfordshire are inputting through various mechanisms and the County and District Councils are represented on the ICP, Districts via Mark Stone and Cllr David Roaune, so there has been opportunity to influence Oxfordshire.
  
  - **E L-E** – Very complex system the VCS are also involved with a seat at BOB
  - **Cllr Brown** – The Districts Rep the ICP will rotate, so it's not fixed. Place based work feels it's a challenge as we have previously done this work in Oxfordshire
  - There has not been enough engagement in the local plans so opportunities are being missed about potential places for Health provision. We need to strengthen that
  - **PJ-** it's good to see young people's mental health but the narrative doesn't say much about how when the system is already broken
  - **Cllr Brown** – we also will shortly have new health data through the census, so this will be interesting
  - **RR-** probably more useful to concern ourselves with getting involved in the local community strategy delivery – Oxfordshire way, prevention, what we can be doing than the high level piece.

**Link to the consultation can be found here: Closed January 27<sup>th</sup>.**

**Next meeting date is April 26th 2023. Face to face**
